NEWSPAPER LAWS.

Any person taking a newspaper regularly from the publisher, whether directed to his name or not, is responsible for the payment. If a person other than the publisher is directed to pay, the publisher may continue to send it until the payment is made, and collect the full amount, whether the paper is taken from the office or not.

The courts have decided that refusing to take newspapers and periodicals from the postoffice, or removing and leaving them uncollected for, is prima facie evidence of intentional fraud.

Papers may be sent to subscribers until an express order to discontinue is received. And no arrears are paid as required by law. Merely returning a number of the paper is not sufficient.

Hay harvest has commenced. There is an unusually heavy crop of grass this season.

—The premium list of the Allen county fair will be ready for distribution in a short time.

—Do the Independent Reformers of this county favor Tilden or Peter Cooper for President?

—Mr. Givens returned home this week from a tour through the south-eastern part of the State.

—The Street Commissioner has done a good job this week in cleaning and opening gutters along the streets.

—For something new in the way of wheat call at Bowler's office and see sample left there by Mr. Palmer.

—George Williams, colored, died last Monday night of typhoid pneumonia, after an illness of some two weeks.

—Messrs. Christian and Powell, of Deer Creek, shipped a lot of cattle at Colony station one day this week.

—Bowler has in his office some very large corn stalks just fifty days old. They were grown on the river bottom.

—The Iola boys who played the match game last Thursday had never practiced together, and of course were not up to their usual proficiency.

—We have received a copy of the premium list of the Kansas City Exposition for 1876. It will be held for six days, commencing Sept. 18th.

—In the last number of the *Scientific American* there is an illustrated description of the improved steam governor invented by J. W. Clark of this city.

—Mr. A. W. Howland is of the opinion that Geneva township will raise a bigger crop of corn this year than last—judging from the present prospects.

—McElroy of the Humboldt Union was in town this week. We suspect he was looking after printer's fees in some of the cases tried at the late term of court.

—The horses to the hack for the Leland Hotel became frightened at the train yesterday afternoon and ran back to the stable. They made good time.

—J. D. Simms shipped four car loads of fat cattle and two of hogs last Thursday. Mr. Harville also shipped three car loads of fine steers at the same time.

—To those greenback fellows who meet at the court house to-day we would suggest, "Money is not made by law, but by labor." More corn, cattle and hogs is what is needed.

—Mr. H. D. Christy, of Terre Haute, Ind., well known to many of our citizens, is on a visit to his sons in this county. He reports crops almost a failure in his part of Indiana.

—At a school picnic on Indian creek, north of Geneva in Anderson county, last Wednesday, a man by the name of Whetzel created considerable excitement by attempting to shoot the proprietor of a swing that was on the ground.

The offender and one of his comrades were arrested and taken to Garnett. Whisky.

INDEPENDENT REFORM CONVENTION.

A mass convention of the Independent Reform Party of Allen county will be held at the court house at Iola, Kansas, July 22d, 1876, at 1 o'clock P. M. of that day for the purpose of electing two delegates and two alternates from each Representative District to the Congressional Convention to be held at Lawrence, July 25th; also two delegates and two alternates from each Representative District to attend the State Convention to be held at Topeka, July 25th.

All friends of the greenback cause are cordially requested to be present and participate in the proceedings.

By order of the County Central Committee.

HOGS.

Persons from the Eastern States who have visited friends in our county have expressed great surprise at finding here such improved breeds of hogs, which they say will compare favorably with those in any of the older States. Farmers here are giving more attention than formerly to raising hogs, and they have wisely concluded that the best breeds are the most profitable. That we have such an improved stock of hogs, and that the demand for them is increasing, is due more to Mr. Robt. Cook than to any one else. He introduced into our county as fine Poland China hogs as can be found in any State, and by persistent advertising and exhibiting them at fairs has convinced farmers that it pays to raise hogs that can be fattened at any age and brought to any desired weight up to 1,200 pounds.

Last Saturday Mr. Cook banded to town and weighed one of his big hogs which he is fattening, and it "tipped the beam" at 875. He feels sure that he can easily make it weigh 300 pounds more. This hog will be on exhibition at our county fair, which commences September 19th and continues four days.

For some time the suspicion has been slowly dawning upon many minds that this so-called independent reform party in Kansas was kept up simply as a tender to the old Democratic party. Should this reform party endorse the Tilden Democracy, next week, by nominating for Congress Goodin, a notorious Tilden Democrat, the suspicion aforesaid would become a conviction in the minds of many Republican Reformers who do not propose to be sold out.—*Lawrence Journal.*
